Here I continue where I left off in Book-3. I had to change the subtitle from **Database** to the **Key Playlist Report**; I explain why in the introduction. You will find several NEW and exciting strategies in Book-4. Here is a quick overview of all the amazing strategies I explain in this book:

===The ONE Digit Prediction System===

In this book I explain how to use my brand new **X Tracking System** to accurately predict ONE digit that will hit in the next TWO drawings! I have been asked many times in the past how to identify ONE digit that will hit in the next one or two drawings. I have not been able to give a satisfactory answer to this question – until now. **In this book I explain in detail the absolute BEST WAY to identify ONE digit that will hit your state in the next two drawings.** Best of all, you will find that this simple system is incredibly **accurate** and that it works **consistently**. Actually, this strategy works like MAGIC. This **secret strategy** will definitely take your game to the Next Level.

In Book-4 I also introduce 3 Brand New Strategies:

***The Perfect Playlist Theory**

***The Spear and the Net**

***The Loose Grip Theory**

But there is MORE!

In Book-4 I also explain....

- *The only **Time Frame** that really matters in the Pick 3 game.
- *The Power of **Daily Feedback**.
- *Why "**future numbers**" are dangerous.
- *Digits, Numbers, and Key defined.
- *The two strategies I used to come up with the **Key Playlist Report**.
- ***What are the Top 10 Keys?** They are listed here. These are the 10 keys that hit over and over again in your state. If you know what numbers follow these keys, you will be able to pretty much "master" the Pick 3 game.
- *Book-4 also includes **the 10 "problem keys."** These problematic keys have a large playlist (more than 74 numbers).
- ***BONUS:** Here you will find the official playlist for the 10 problem keys so you know exactly what numbers are most likely to hit in the next two drawings when one of these keys show up in your state.
- *I also explain the **Line Tracking System** and how it works.
- ***The Key Tracking System** is explained here as well.
- *Why the **Key Tracking System** is better than the **Line Tracking System**.
- *Why the **X Tracking System** is so incredibly accurate.
- *The most common **X Patterns** and what they mean (this information is Pure Gold for the serious Pick 3 player).
- *When you should stop using the Daily Hits System - and when to start playing again.

Reading Book-4 WILL dramatically improve the quality of your game!

You can find Book-4 here:
