

EMAIL I JUST GOT

Anthony thanks for the books and helping me out. You can make nice money playing the Pick 3. I have a job but it really does not help that much. Having your books can improve my life big-time. I look forward to finish reading all of them in a couple of days. This will give me the time to learn the programs. Maybe one day I'll visit New York and buy you lunch just to thank you.

MY RESPONSE

Thanks.

But I have to tell you....it is best to view Pick 3 as a hobby. It is something you do for fun; it's a past time. You should not depend on it to make money over the long term; the game is just too unpredictable.

To make REAL money (consistently), I suggest you read my **Wealth Report** kindle (it's just \$2.99):

<https://www.amazon.com/dp/B071CLM66Y>

You can email me the code on the last page if you want the PDF.
Also, email me with **SEND WEALTH FOLLOW UP-4** on the subject line of your email and I will email you the follow up reports I wrote afterwards. There are 4 follow up reports. I give these away for FREE.

Just being honest with you here. I think that you should play Pick 3 because you enjoy the challenge of predicting what will hit next; not because you think that playing it will make you rich. To become rich, you will have to use another approach and that approach should be the strategy I explain in the Wealth Report – or something similar to it.

You can email me at aanewyork4000@gmail.com
