When wheeled, these four digits produce these four numbers: 123, 126, 136, 236. There is good chance that one of these numbers will hit box before one of the 20 numbers hits straight. Another possibility is that you will be seeing several numbers hitting in NY that have digits 1, 2, 3, and 6.

After one of the 20 numbers hits straight, the workout has to be done again to get a new list of 20 straight numbers.
