

# 485 Just Hit New York (Due Pair 45)

It's now 4:30PM on Thursday February 1, 2018 and the number 485 hit New York a few hours ago. This is interesting because just yesterday I put up a post saying that pair 45 is the most due pair in New York right now and that the 10 best box numbers to play are the 10 numbers that correspond to this pair: **450 451 452 453 454 455 456 457 458 459**.

You can see the post here: <http://alturl.com/qq2qe>

The 4 Most Due Pairs: **45** 89 59 56

## The 40 Master Numbers

**450 451 452 453 454 455 456 457 458 459**  
890 891 892 893 894 895 896 897 898 899  
590 591 592 593 594 595 596 597 598 599  
560 561 562 563 564 565 566 567 568 569

Notice that the 3<sup>rd</sup> digit (8) is in one of the other due pairs (89):

The 4 Most Due Pairs: **45 89 59 56**

This happens quite frequently; **a due pair will hit along with a digit from one of the three other due pairs.**

A good strategy is to wheel the digits in the due pairs to come up with a playlist. In this particular case in New York, there are five unique digits: 4-5-8-9-6...which will always give you 10 box numbers when wheeled. One of those wheeled numbers hit.

Wheeling Program

Wheel 45896:

456 **458** 459 468 469 489 568 569 589 689 (10)

When one of the four pairs hits, you have to redo the workout (either by hand or using my program) to get the new due pair. Pair 45 will be removed in this case and the next pair (89) will move to the front; pair **89** is now the most due pair in New York. When you redo the workout you will get the 4<sup>th</sup> most due pair (XX).

The 4 Most Due Pairs: **89 59 56 XX**

All I have to do is add the last number that hit (**485**) to the front of my list and enter the numbers into the **4-Due Pairs** program to get the new due pair. The output is on the next page.

As you can see below, the newest due pair is **07**.

**Record this new pair in your notebook, as I explained in my last post:** <http://alturl.com/qq2qe>

# Sometimes You Will See Hot Numbers Right on the Pairs Themselves

For example, the digit 9 is in both pairs 89 and 59, making the number **895** a HOT number ( $89 + 59 = 895$ ).

The 4 Most Due Pairs: **89 59 56 07**

I would add 865 just in case the 9 flips and hits as a 6.

It would be a good idea in this particular case to wheel the digits in the first three pairs because these pairs are connected to each other:

The 4 Most Due Pairs: **89 59 56 07**

**When the four digits are wheeled (8-9-5-9), you get four hot box numbers to play in New York for the next few days.**

Wheeling Program

Wheel 8956:

**568 569 589 689** (4)

**Do the same for your state.**

Identify the four most due pairs and wheel the digits to get a list of hot numbers to play in your state. You can do the workout by hand, or better yet, use my **4-Due Pairs** program.

# Pay Attention to the NEW Pair Because It May Hit Quickly

Pair 07 is the newest due pair in New York.

I have noticed that it will many times hit right away (1 to 7 days later); so pay attention to it, especially if several of the numbers generated by whatever workout you use have this pair.

The 4 Most Due Pairs: **89 59 56 07**

This means that one of these numbers will hit NY soon (or maybe before pairs 89, 59, or 56 hit):

**070 071 072 073 074 075 076 077 078 079**

Again, you can do this workout by hand or use my program to get the most due 4 pairs in your state.
