

The 5 Checkpoints

INTRODUCTION: The **7 Day Coding System** is my best and final solution to the Pick 3 riddle. This system has given me the hits you see here: <https://pick3master333.com/box-hits/>

I explain this system here:

<https://pick3master333.com/best-system/>

The best and most affordable way to learn the basics of this system is by purchasing this Kindle: <https://www.amazon.com/dp/B07CN789HK>

I recently put up new versions of the **Pair Frequency Finder** program on my site: <http://pick3programs.com> – You can use these new programs to identify the hottest pairs in different amounts of codes collected. I call these specific number of drawings or codes a **checkpoint**. The 5 most important checkpoints are 70, 100, 200, 350, and 420 (the program for checkpoint 420 will be up soon). For now you can use the regular program (in red below) to find the hottest pairs in the last 420 codes collected (which is the number of codes in 30 weeks in 2-draw per day states: 14 codes per week X 30 weeks = 420 codes)

> **PAIR FREQUENCY FINDER 40**

> **PAIR FREQUENCY FINDER 70**

> **PAIR FREQUENCY FINDER 100**

> **PAIR FREQUENCY FINDER 200**

> **PAIR FREQUENCY FINDER-350**

> **PAIR FREQUENCY FINDER-420 (Coming Soon!)**

> **PAIR FREQUENCY FINDER (works for any amount of codes used)**

> PAIR-PLAYLIST

> BOX-TO-STRAIGHT

The benefit of having different programs is that they will automatically use a specific amount of codes or numbers and delete the rest; therefore, you will not have to count out numbers one by one.

For example, I currently have 420 codes on my Excel sheet (I explain the Excel coding sheet and how to code the Pick 3 game in your state in **The Coding Report**). If I want to know what are the hottest pairs in the MOST RECENT 200 drawings, I just copy row F on my Excel sheet and paste the entire list onto the top input box of the Pairs 200 program. The program will only use the most recent 200 codes and delete the rest.

I will now explain how to identify the 3 HOTTEST pairs on your list of codes (assuming you are using my 7 Day Coding System) using these programs. **(You can use this system to find the top 3 REGULAR hot pairs in your state as well.)** Checkpoint 40 is not one of the 5 most important checkpoints (70, 100, 200, 350, 420) – but I already have a program up for it, so might as well use it. When I do that, the top three pairs are 13, 18, and 79. This means that these are the pairs that hit the most times in the last 40 codes collected. As you will soon see, the most important pair here is 79.

Conclusion: The 3 hottest pairs on the list of codes for New York are 12, 79, and 01. Pair **12** is a recent hot pair in the last 100 to 200 codes collected and pairs **79** and **01** have been hot over the long term, with pair **79** being slightly hotter than pair **01**. This conclusion is valid and “solid” because it has been confirmed by looking at the results of several checkpoints.

By the way, these are CODES – not actual pairs to play in NY (so do NOT play these pairs in New York). These pairs will have to be converted into the actual pairs to play on Saturday night using the distribution of the last 40 numbers that hit as I explain in the **Coding Report**. The conversion is done automatically by a especially formatted Excel sheet, which is included with the purchase of the **Coding Report**.

Find the Hottest Regular Pairs in Your State

You can use the same programs to find the 3 hottest regular pairs in your state. First you will have to have the numbers for your state written out in a Word document. Simply copy your list of numbers into the programs and see which pairs keep showing up on top of the list in the output. **These are the best pairs to play in the next 7 days.**

3 MONTH SPECIAL

If you have access to my programs, you can use this pair strategy right away to find the hottest pairs in your state or the hottest pairs in the codes. If you do not have access, you can use my programs for the next 3 months for just \$20. If interested, simply email me with this on the subject line of your email: **\$20-3 MONTH-BASIC-SPECIAL**. I will send you a Paypal invoice right away. I will give you access right after I get payment.

6 MONTH SPECIAL

You can get 6 months of Basic membership for \$40. If interested, email me with this on the subject line of your email: **\$40-6 MONTH-BASIC-SPECIAL**. I will send you a Paypal invoice right away. I will give you access right after I get payment.

If you are not familiar with my **7 Day Coding System**, I suggest you first purchase my Kindle which introduces the system (its only **\$2.99**): <https://www.amazon.com/dp/B07CN789HK>

Then read **The Coding Report**.
