

Basic and Advanced Coding Strategies for August 3, 2018 (The \$1800 System)

In this report I will be answering some basic questions regarding the coding process involved in the **7 Day Coding System** and I will also reveal the single most ADVANCED and PROFITABLE strategy I have ever come up with. **The 4 number system I explain here replaces the pair 79 system.** I will start out by answering some questions I received recently.

QUESTION-1

You say to code the following week.

I am playing New York and being that it is Thursday August 2nd, I won't be able to code this week until Sunday August 5th when I can get the numbers that fell from Saturday evening August 4th to Sunday Midday July 29th...correct?

ANSWER-1

First you have to understand what a "week" is.

My definition of a week is a calendar week.

This means that a **week goes from Sunday to Saturday.**

Sun	Mon	Tue	Wed	Thu	Fri	Sat
24	25	26	27	28	29	30
1	2	3	4	5	6	7
347	002	564	671	863	715	567
758	120	928	474	910	324	693
8	9	10	11	12	13	14
584	532	129	081	533	740	030
795	729	234	839	979	544	390

This means that you can start coding the week **on Saturday night**, so you can start coding this week on the night of Saturday August 4 after the evening drawing (assuming you are in a 2-draw per day state).

August 2018					
n	Tue	Wed	Thu	Fri	Sat
30	31	1	2	3	4
		288	011	979	
		456	288	576	

<https://www.lotterypost.com/results/ny/calendar/numbers/2018>

QUESTION-2

After I am done coding the week and have the codes in column F this week, I then move on and do the same process with the week before this one?

ANSWER-2

Going back in time while coding will confuse you.

I suggest you do it this way:

When counting weeks, always look at **SATURDAY**

(the end of the week).

<https://www.lotterypost.com/results/ny/calendar/numbers/2018>

15	16	17	18	19	20	21
757	775	641	187	145	107	911
711	250	208	267	489	853	023
22	23	24	25	26	27	28
814	824	988	490	871	094	734
982	161	696	125	114	928	856
29	30	31	1	2	3	4
015	441	734				
882	739	996				

So go to the last Saturday (July 28) and count back 10 weeks, which will take you back to May 19. **Start coding from there.** In other words, **go from the past to the present** (not the present to the past). To add 10 more weeks of codes, count back 10 weeks from May 19.

QUESTION-3

My first week will be this week.

If I am coding the minimum of 12 weeks, I have to code 11 more weeks right?

ANSWER-3

YES. Count back 11 Saturdays and that will give you 12 weeks. But I have to tell you; you will need A LOT MORE codes for this. 300 to 400 codes is good. The maximum number of codes you should use is 500.

QUESTION-4

One important question I have now is when writing out my 12 weeks of code; every time I go a week forward, do I have to count **40 days** from the following Saturday before that week to get a new set of distribution digits? **Or do I stick with the original distribution digits I got starting from the previous week** (starting from Saturday July 28th)?

ANSWER-4

This question tells me that you have to go back and re-read **The Coding Report**.

First of all, you use the last **40 numbers** – NOT the last 40 days. And the 40 numbers ALWAYS start from the last number that hit on SATURDAY night.

And you NEVER use the distribution from one week for the following week. **EVERY week gets its own 40 number distribution**.

For example, this is the distribution for **JULY 7, 2018**
(693 and 567 hit on that SATURDAY).

Visual Digit Distribution-40

40 Numbers used:

693 567 324 715 910 863 474 671 928 564
120 002 758 347 456 182 230 783 917 330
876 487 674 886 834 963 454 101 008 655
196 032 167 249 763 053 034 947 920 746

4 6 7 3 0

8 1 2 5 9

Visual Key Distribution:

4 6 7 3 0 8 1 2 5 9

4 6 7 3 0 8 1 2 5 9

4 6 7 3 0 8 1 2 5 9

July 2018						
Sun	Mon	Tue	Wed	Thu	Fri	Sat
24	25	26	27	28	29	30
1	2	3	4	5	6	7
347 758	002 120	564 928	671 474	863 910	715 324	567 693
8	9	10	11	12	13	14
584 795	532 729	129 234	081 839	533 979	740 544	030 390
15	16	17	18	19	20	21
757 711	775 250	641 208	187 267	145 489	107 853	911 023

I will use this distribution...

4 6 7 3 0

8 1 2 5 9

...to code the 14 numbers that hit the **following week**
(July 8-14): 584, 795, 532, 729, etc.

July 2018						
Sun	Mon	Tue	Wed	Thu	Fri	Sat
24	25	26	27	28	29	30
1	2	3	4	5	6	7
347 758	002 120	564 928	671 474	863 910	715 324	567 693
8	9	10	11	12	13	14
584 795	532 729	129 234	081 839	533 979	740 544	030 390
15	16	17	18	19	20	21
757 711	775 250	641 208	187 267	145 489	107 853	911 023

At the end of the week (SATURDAY NIGHT, July 14),
I will get a **NEW** 40 number distribution. This set of 40 numbers
will start with 390 (the last number that hit on Saturday night).

Visual Digit Distribution-40

40 Numbers used:

390 030 544 740 979 533 839 081 234 129
729 532 795 584 693 567 324 715 910 863
474 671 928 564 120 002 758 347 456 182
230 783 917 330 876 487 674 886 834 963

3 7 4 8 9

0 2 5 6 1

Visual Key Distribution:

3 7 4 8 9 0 2 5 6 1

3 7 4 8 9 0 2 5 6 1

3 7 4 8 9 0 2 5 6 1

At the end of the week (SATURDAY NIGHT, July 21),
I will get a NEW 40 number distribution. This set of 40 numbers
will start with 023 (the last number to hit on Saturday night).

Visual Digit Distribution-40

40 Numbers used:

023 911 853 107 489 145 267 187 208 641
250 775 711 757 390 030 544 740 979 533
839 081 234 129 729 532 795 584 693 567

7 1 0 5 2

3 4 9 8 6

Visual Key Distribution:

7 1 0 5 2 3 4 9 8 6

7 1 0 5 2 3 4 9 8 6

7 1 0 5 2 3 4 9 8 6

QUESTION-5

I don't see the **Group Matching 500** program.

How can I get the distribution of the last 500 codes for my state?

ANSWER-5

Mike (my programmer) is currently travelling; so he has not put up the **Group Matching 500** program yet. However, in the meantime, there is another way for you to get the distribution of the last 500 codes that hit your state. Just copy your list of codes (assuming you have more than 500 codes) into the Pair Frequency 500 program. The program will have exactly 500 codes (or numbers) in the output.

Best Programs

- > 10 SUPER NUMBERS
- > 8 SUPER NUMBERS
- > THE RUNDOWN LIST
- > PICK 3 MASTER
-
- > PAIR FREQUENCY FINDER 200
- > PAIR FREQUENCY FINDER-350
- > PAIR FREQUENCY FINDER-420
- > **PAIR FREQUENCY FINDER-500**
- > PAIR FREQUENCY FINDER
- > PAIR-PLAYLIST
- > BOX-TO-STRAIGHT

Copy these 500 codes into the regular Group Matching System program and the program will give you the distribution.

Best Programs

- > 10 SUPER NUMBERS
- > 8 SUPER NUMBERS
- > THE RUNDOWN LIST
- > PICK 3 MASTER
- > 8 STRAIGHT NUMBERS
- > STRAIGHT GROUP MATCHING 360
- > STRAIGHT GROUP MATCHING 300
- > STRAIGHT GROUP MATCHING 100
- > VISUAL DIGIT DISTRIBUTION-100
- > STRAIGHT GROUP MATCHING 60
- > STRAIGHT GROUP MATCHING
- > GROUP MATCHING SYSTEM 60
- > **GROUP MATCHING SYSTEM**
- > VISUAL DIGIT DISTRIBUTION-60
- > VISUAL DIGIT DISTRIBUTION-40
- > VISUAL DIGIT DISTRIBUTION-28
- > VISUAL DIGIT DISTRIBUTION

Advanced Coding Strategy

Part 1

The maximum number of codes you should use is 500 – but you can definitely use less. **You will get a more accurate picture of exactly what are the hottest codes by using 350, 400, and 450 codes.** For example, I am going to copy all the codes on my Excel sheet into the Frequency 420 program to identify the most recent 420 codes on my Excel sheet.

- > PAIR FREQUENCY FINDER 200
- > PAIR FREQUENCY FINDER-350
- > **PAIR FREQUENCY FINDER-420**
- > PAIR FREQUENCY FINDER-500
- > PAIR FREQUENCY FINDER
- > PAIR-PLAYLIST
- > BOX-TO-STRAIGHT

I copied the 420 codes and pasted them into the top input box of the Group Matching System program. You can see the output on the next page. As you can see, the 6 hottest codes are 018, 679, 168, 289, 456, and 568.

7-Way Match: 018 679 (2)

6-Way Match: 168 289 456 568 (4)

Group Matching System

420 Numbers used:

224 115 006 389 115 229 347 247 033 115 068 389 056 478 267 116 018 134 267

 889 017 156 019 014 079 199 179 047 036 467 479 589 356 349 779 249 239 023
 018 159 048 279 114 678 057 199 114 258 016 189 117 345 677 018 246 008 345
 456 014 156 369 248 158 345 119 356 779 189 257 119 017 579 058 002 013 157
 468 388 779 012 034 445 589 246 088 677 456 016 012 055 224 067 477 257 367
 477 125 018 245 466 028 199 779 459 459 369 124 344 569 459 349 029 029 244
 289 279 599 559 569 136 123 168 179 246 679 568 125 167 147 137 139 888 027
 067 077 003 467 679 569 556 559 077 059 088 014 018 026 168 179 149 336 488
 457 778

7-Way Match: **018 679** (2)

6-Way Match: **168 289 456 568** (4)

5-Way Match: 008 017 029 124 147 279 356 559 569 (9)

4-Way Match: 012 014 019 047 056 115 117 136 138 179 199 224 235
 246 247 467 779 (17)

Advanced Coding Strategy

Part 2

Here are two very important rules:

1-Identify the hottest codes on your list.
(use 350 to 500 codes for this).

2-Reduce this list down to 4 codes.
You reduce the list of codes by seeing which
of the codes hit recently.

How to Turn the 4 Hot Codes into the Actual Numbers to Play for the Coming Week

Codes 018 and 168 can be removed from the list of 6 hot codes since they hit recently. This reduces the list down to just 4 codes (these are the 4 hottest and most due codes in New York):

679 289 456 568

That is all you will be playing: 4 numbers.

However, these are CODES – not the actual numbers you will be playing.

To turn these hot codes into numbers, do this (these are the 12 Steps of **The \$1800 System):**

1-Write 01234-56789 in the Anchor.

2-Enter these 4 codes into your Excel sheet.
Find a place for them; the top of the sheet is good.

3-Wait for Saturday night.

4-Enter the last 40 numbers that hit into any of the 40 number distribution programs to get the distribution (**Visual Digit Distribution-40, 2-Hot Pairs, 3-Hot Pairs, etc.**). **Check and double check the 40 numbers; they must be correct or else your numbers will be incorrect.**

5-Enter the distribution into the Anchor.

6-The 4 hot codes will be instantly turned into the 4 actual numbers to play for the following week (Sunday to Saturday).

7-Keep playing the 4 codes until one of them hits.

8-Keep playing the 3 most due codes until one of them hits.

9-Keep playing the 2 most due codes until one of them hits. NOTE: This means that you will ALWAYS be playing 4, 3, or 2 numbers. I do not recommend playing just one number.

10-Redo the workout once 1 of the 2 codes hits. This means that you will once again identify the hottest codes (using the last 350 to 500 codes that hit your state) and then see which of them hit recently.
Reduce the list until you are down to just 4 hot codes. Keep playing these until you are down to 1; then redo the workout again.

11. If you can, play the numbers STRAIGHT. This means that the 4 numbers will be turned into 24 straight numbers (4 X 6). Use the Box to Straight program to turn box numbers into straight numbers.

- > PAIR FREQUENCY FINDER 200
- > PAIR FREQUENCY FINDER-350
- > PAIR FREQUENCY FINDER-420
- > PAIR FREQUENCY FINDER-500
- > PAIR FREQUENCY FINDER
- > PAIR-PLAYLIST
- > BOX-TO-STRAIGHT

12-WIN BIG! If you can, spend the SAME amount of money as you REDUCE the amount of numbers you play (4-3-2). This means that you will be putting more money on LESS numbers. **This means winning MORE money as you move in the progression: 4-3-2.**

Keep in mind that if played at 5dimes:

A 0.25 cent straight hit pays \$225.

A 0.50 cent straight hit pays \$450.

A \$1 straight hit pays \$900.

A \$2 straight hit pays \$1800.

VERY IMPORTANT: Keep in mind that even though the 4, 3, and the last 2 remaining CODES will stay the **same** week to week, the corresponding NUMBERS will **change** week to week because the numbers will be based on the distribution you get on Saturday night and this distribution changes every Saturday night.

The Pick 3 Coach

August 3, 2018
